Education

Deenbandhu Chhotu Ram University Of Science And Technology **Sept. 2020 – June 2024**
B.Tech Computer Science and Engineering , CGPA: 8.2 *Sonipat, Haryana*

RPS Public School **May. 2020**
Class XII, Percentage Scored - 93.2%

Projects

To Do List

A online **task manager** in which we can manage our tasks and if done then we can remove those tasks by ticking on them.

- With this you can keep your daily or weekly lists manageable
- Tech Stack: Node.js, Express.js, MongoDB, HTML, CSS, Javascript,Figma/AdobeXd.

Student Attendance Record

The idea of this project is to store the attendance of each student in the class so that he can track his attendance.

- Every student has separate credentials, and he or she can check for government holidays.
- Tech Stack: Node.js, Express.js, MongoDB, HTML, CSS, Javascript, authentication and security.

Level Up games

- Made games using c++. Created different music instrument using javascript and basic html, css
- This project involved making of different level games and upgrading with each execution . I started with simple scientific calculator and further made games like Car parking ticket, Snake water and gun ,lottery shop and many more.
- Tech Stack: c++, HTML, CSS, Javascript.

Experience

IIC Web Dev member **March. 2022 – Current**

- Working on the university site to create new designs and modify previous ones.
- Improve the security of the website by using passport.js.

Team Coder **Jan. 2021 – Current**

- A small team at its own level was made to learn how to do work on stuff in a team. It also helped me to understand team importance.
- All the tasks were divided into different phases, the learning phase, idea formation, and finally applying the concept.
- At first, we strengthened our programming skills and then developed smaller prototypes and collaborated on them. Despite the covid situation, we worked in a team on the discord server completely regulated and designed.

Programming and Developing **Jan. 2021 – Current**

- Good at DSA and a regular competitive programmer. Have experience of more than 1.5 years of programming and nearly 8 months experience in web development.

Technical Skills

Language and Core: C++, C, DSA, OOPS

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, JQuery

Backend: Node.js, Express.js, MongoDB, SQL

Other tools and skills: Adobe XD, Figma, Adobe photoshop, Adobe illustrator, Adobe Premiere Pro, Visual Studio Code, Git/GitHub.

Achievements

- Secured a Global rank of 22 in April long challenge of codechef and 4 star coder at codechef.
- Solved 500+ questions on Leetcode , GeeksForGeeks and hackerrank.
- Secured a AIR of 3931 in Google Kickstart Round E.
- Pupil at codeforces and 5 star in problem solving at hackerrank.
