EXPERIENCE

- **Full Stack Developer - IIC - DCRUST** On Site
Maintainer of the repository *May 2022 - August 2022*
 - **Implemented delivery of static assets through CDN:** Most of the assets were statically added to the website. With the help of CDN, I reduced the loading time by around 6 - 8 seconds, as evident [here](#), delivering clean modulated code.
 - **Other changes:** Modified the card designs and layout of the website's pages so that it looks even more attractive.

PROJECTS

- **Mern Login App:** A Mern application for login and authentication. OTP verification on resetting password. Sign in directly using Gmail, GitLab, and GitHub. Tech Stack: Fromik, React-hot-toast, React, node js, express js, MongoDB. [LINK](#)
- **Notio-Online Notes Manager:** A highly responsive online notes manager application that stores notes in a database. Important notes can be selected and easily edited and deleted. All the notes will be sorted according to their added date. Users can access their specific notes. [LINK](#)
- **Typito-Typing Test:** An online typing test that tells your typing progress and keeps records of the highest typing speed, average typing speed, and total typing hours. It calculates your accuracy and WPM. Have a modern interface so that typing can be done for long hours. [LINK](#)
- **Other projects:** Several other projects I've been working on are listed both on my portfolio [here](#) and Github [here](#).

ACHIEVEMENTS AND HONORS
